

Easy to erect,  
pack-down,  
store & transport

SpillSmart Collapsible Bunds provide cost-effective temporary storage for liquids and chemicals whilst containing potential spills and leaks. These Bunds are easy to store and quick to deploy. The external folding legs lock into place keeping the 300mm side walls rigid. Within seconds, the legs can be unlocked and folded down allowing access for pallet jacks, forklifts and vehicles. Eyelets are also provided on the base of the legs if pegging to soft ground is required.

These Bunds have multiple fabric options to suit a wide range of site requirements and can be custom made to your client's specification. Please contact your Envirosmart distributor for further information including our range of temporary Bund accessories.

### Designed for:

- Temporary storage of liquids, chemicals and leak containment
- Equipment washing
- Where vehicle access is required into the bund
- A portable temporary bund solution

### Available Materials:
