HOT NEW PRODUCT

BioSmart Biohazard Spill Kits

BioSmart Biohazard Spill Kits are a valuable 'must have' first response kit for the rapid and safe removal of body fluid contaminants. To assist you, we provide Clear Directions, Body Fluid Absorbent Powder with Odour Control and P.P.E. for your safety.

ES-SK-BIO-P BioSmart Biohazard Premium Single Use Spill Kit

ES-SK-BIO-E

BioSmart Biohazard Economy Single Use Spill Kit

BioHazard Spill Kits are available in Premium, featuring a Zeolite based Absorbent Powder & Economy offering a Perlite based Absorbent Powder in single use Spill Kit varieties.

As required by:
Installation of fire
hose reels
AS 2441-2005

ES-FHRC

Fire Hose Reel Covers

Spillsmart Fire Hose Reel Covers are designed to provide great protection for your fire hose reel. Made from heavy duty UV stabilized red PVC, designed to cover your hose reel to keep them in good working order. The hose reel cover has been designed so it is suitable for both indoor or in an industrial environment where it may be exposed to dust and dirt. Spillsmart Hose Reel Covers is suitable for most types and sizes of fire hose reels.

SpillSmart Absorbents

Absorbent Pads, Rolls and Pillows

SpillSmart Absorbent Poly Pads and Rolls are available in General Purpose, Oil-Only and HazChem varieties.

These products are used in a variety of situations. The General Purpose pads and rolls are best for the absorption of non-aggressive fluids such as oil, water, glycols etc. Our Oil-Only pads and rolls are ideal for skimming oil off water, wiping down greasy tools and machine parts and our HazChem varieties are specifically designed for laboratory situations for the absorption of hazardous chemicals including acids and many other caustic fluids.

ES-PP-400-P	SpillSmart Poly Pads - Oil Only
ES-PPHAZ-400-P	SpillSmart Poly Pads - Hazchem

ES-PPGP-R44	SpillSmart Poly Roll - General Purpose
ES-P-POLY	SpillSmart Poly Pillows - Oil Only
ES-P-HAZ-A	SpillSmart Poly Pillows - Hazchem
ES-P-GP	SpillSmart Poly Pillows - General Purpose

Socks and Booms

SpillSmart Socks are available in General Purpose, Oil Only and Hazchem varieties. Socks are cylindrical in shape and are used to barricade runaway fluids or catch constant leaks around the base of heavy machinery. Also useful for barricading entrances, line walkways, and protecting drains. They are also used as a first response for spill emergencies. Booms absorb and contain oil spills on water. Sections are linked together, forming a barrier.

Poly Boom - Oil Only 3m

general
purpose

Designed for non-aggressive fluids such as oil, water, glycols and oil and water based non aggressive liquids for applications on land.

oil only

For absorbing & containing oils and fuels only. Will repel water so great for spills on water. Also useful for wiping down greasy tools and machine parts.

hazchem

Specifically designed for the absorption of hazardous chemicals including acids and many other caustic fluids.

ES-A-AP-15

All Purpose Absorbent

All Purpose Absorbent is the cost effective, quick acting and natural way to convert potentially harmful liquid pollutants into solids for easy disposal.

An inert mineral-based absorbent, it rapidly encapsulates liquids, and can safely be used on strong acid or alkaline solutions, petroleum and hydrocarbons, oils, solvents, sewage, protein-based fluids in domestic, commercial and industrial situations.

ES-A-FS-10

SpillSmart FloorSweep

SpillSmart FloorSweep is an organic cellulose absorbent that contains highly effective microbes to 'digest' oils and hydrocarbons, converting them to nutritious soil conditioner.

Fully biodegradable, quick acting, safe to use in domestic, commercial and industrial situations.

See it in Action!

ES-A-HAZ-35

SpillSmart HazSorb

SpillSmart HazSorb is a vermiculite product designed to be used in Hazchem spills. It is a cost effective, non toxic, inert alternative to cellulose (reactive to many chemicals) and a more easily manageable and effective absorbent than regular kitty litter and zeolite style absorbents.

ES-A-RS-12

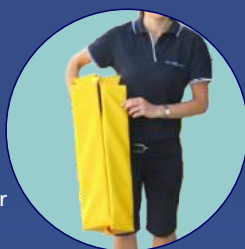

SpillSmart RoadSpill

SpillSmart RoadSpill's biodegradable organic cellulose materials with mineral grit absorb and encapsulate oils, hydrocarbons and other contaminants, leaving paved surfaces dry and reducing slippage.

SpillSmart Containment

Spillbunds

Lightweight and easy to clean, SpillSmart Spillbunds provide spill containment in applications where hydrocarbons or potentially hazardous chemicals/liquids are stored. The flexible side walls allow for simple delivery of liquid storage drums. Made from a strong, chemically resistant and UV stable polymer coated fabric.

Lightweight and portable

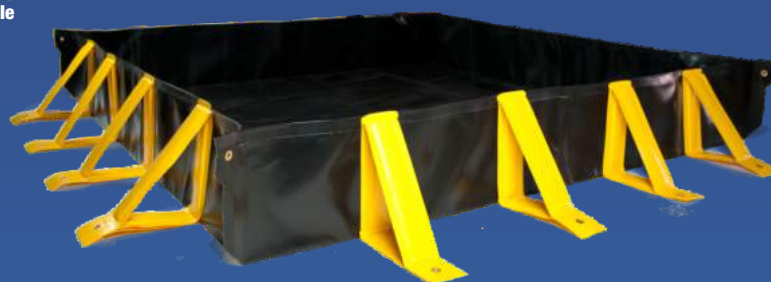

ES-B-SB-PVC 900gsm PVC Version
ES-B-SB-ELV Heavy Duty Elvaloy Fabric
ES-B-SB-PLY Polypropylene Version

Collapsible Bunds

SpillSmart lightweight collapsible bunding provides temporary storage of hazardous chemicals and liquids where vehicle access is required. The walls easily collapse and re-erect, and it's easy to transport, store and clean.

Easy to erect, pack-down, store & transport

ES-B-CB-PVC 900gsm PVC Version
ES-B-CB-ELV Heavy Duty Elvaloy Fabric
ES-B-CB-PLY Polypropylene Version

Rigid Bunds

Available in hard wearing, chemical resistant and UV stable polymer coated fabric, and heavy duty PVC or FTL30 for heavier use, such as vehicles driving in, SpillSmart reusable Rigid Bunds are a cost-effective solution for temporary storage of liquids, especially where floorspace is limited.

ES-B-RB-PVC 900gsm PVC Version
ES-B-RB-ELV Heavy Duty Elvaloy Fabric
ES-B-RB-PLY Polypropylene Version

SpillSmart SpillPlug

Save spill clean up costs by the immediate repair of the leak source.

SpillSmart SpillPlug is a non-toxic, malleable material that adheres to wet and dirty surfaces, even while fluid is still running... and it seals instantly! It works with a wide range of chemicals including solvents, gasoline and diesel.

SpillSmart Drain Warden

SpillSmart Drain Wardens are a highly effective storm water drain insert, filtering sediment and rubbish from storm water runoff. Simple to install, it is suspended from the drain grate. Runoff is filtered through polypropylene geotextile material and an absorbent sock removes free floating oils.

Drain Warden
Installation

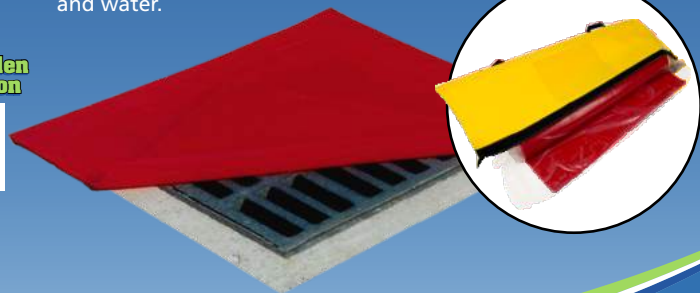

Drain Seals

Prevent accidental spills entering drains, grates or manholes by protecting them with a SpillSmart Drain Seal. Easy to use in emergencies, just place the Drain Seal directly over the drain. It is reusable and cleans easily with soap and water.

containment needs.

Oil/Water Separators

The Domino VGS is an oil/water separator developed to effectively remove free oil, grease and suspended solids from wastewater.

The Domino VGS is the perfect solution for applications such as Vehicle wash Downs, Automotive & Industrial Workshops, Fuel storage depots, Gas stations, Restaurants, Power stations, Refineries and Marinas.

Acclaimed by major water authorities around the world as "the best technology of its kind", the Domino VGS can be used as a stand-alone separator or to supplement the performance of existing systems.

Did You Know?

At Everything Water, we specialize in designing and building Truck & Car Wash down facilities to suit your needs. You find the site, we'll do the rest.

From coordinating the architects, hydraulic consultants, equipment manufacturers etc through to commissioning and testing of all the installed equipment, we do it all for you.

Trouble free Ownership: Low maintenance, low running costs and quality equipment which requires minimal maintenance.

SpillSmart Silt and Marine Containment

Containment Booms

A temporary floating barrier used to contain an oil spill on water.

Weed Booms

Designed to catch and control rubbish, pollution and aquatic plants through either exclusion or containment.

Trash Booms

Floating containment booms containing rubbish and weeds in waterways.

Silt Curtains

Used to control the silt and sediment in a body of water. Ideal for use in marine construction and dredging

Custom Made
