

SpillSmart General Purpose Pads have been designed to rapidly absorb hydrocarbon and water based spills including Oil, Fuel, Coolant, Degreasers, Brake Fluid and Paints. They are also effective for the cleaning up of body fluids, sewerage, milk and all non-aggressive liquids. Absorb spills, drips and splashes in and around machinery, tool and tank wipe downs or for a final clean after taking up a spill with loose particulate absorbents. They are premium quality, Heavy Duty and provide the strength and durability required to absorb a wide variety of spills. These Pads will cover most land based situations and are supplied in bales of 100.

EnviroSmart has a great range of premium absorbent pads to take care of a huge variety spills. Please speak to your local distributor for further information.

Designed for:

- Indoor & outdoor land based spills
- Fluids absorbed include Oil, Petroleum, Ethanol, Kerosene, Brake Fluid, Mineral Spirits, Turpentine, Water Based fluids and all non-aggressive liquids
- Effective for cleaning up body fluids, sewerage, milk and all non-aggressive liquids
- Equipment, tools, machinery and tank wipe downs
- Placing in and around machinery to absorb spills, drips and splashes
- Automotive industry
- Warehousing and storage area's containing hydrocarbon and non-aggressive liquids
- Site maintenance
- Manufacturing industries

Features:

- Compatible with Oil & Hydrocarbons, water based fluids and non-aggressive liquids
- Fast acting with high absorbency
- Easy to deploy & retrieve
- Supplied in bales of 100
- Fast wicking action

ES-PPGP-400

General Purpose Poly Pad 48cm x 43cm - Heavy Weight

SpillSmart General Purpose Pads have been designed to rapidly absorb hydrocarbon and water based spills including Oil, Fuel, Coolant, Degreasers, Brake Fluid and Paints. They are also effective for the cleaning up of body fluids, sewerage, milk and all non-aggressive liquids. Sometimes referred to as contractor grade, these Light Weight pads are very economical and suit work environments where high usage occurs. Their polypropylene design ensures they are strong enough for cleaning machinery yet absorbent enough to absorb leaks, drips and spills. These Pads will cover most land based situations and are supplied in bales of 200.

Envirosmart has a great range of premium absorbent pads to take care of a huge variety spills. Please speak to your local distributor for further information.

Designed for:

- Indoor & outdoor land based spills
- Fluids absorbed include Oil, Petroleum, Ethanol, Kerosene, Brake Fluid, Mineral Spirits, Turpentine, Water Based fluids and all non-aggressive liquids
- Effective for cleaning up body fluids, sewerage, milk and all non-aggressive liquids
- Equipment, tools and machinery
- Placing in and around machinery to absorb spills, drips and splashes
- Automotive industry
- Warehousing and storage area's containing hydrocarbon and non-aggressive liquids
- Site maintenance
- Manufacturing industries

Features:

- Compatible with Oil & Hydrocarbons, water based fluids and non-aggressive liquids
- Fast acting
- Clean-up a wide variety of land based spills
- Easy to deploy & retrieve
- Economical
- Supplied in bales of 200

ES-PPGP-200

General Purpose Poly Pad 48cm x 43cm - Light Weight

SpillSmart Oil Only Pads have been designed to rapidly absorb hydrocarbon based spills. They are suited for both Marine and Land based applications where oil and oil based spills may occur.

Being hydrophobic, (repel water) they will float on water and remove oils from the surface. These highly absorbent pads are premium quality, Heavy Duty and provide the strength and durability for a thorough clean-up.

They are also suitable for area's that require a long lasting pad to capture a leak, drip or spill. White in colour they are easy to identify as an 'Oil Only' Pad and are supplied in bales of 100.

Designed for:

- Marine & land based environments
- Cleaning up hydrocarbons, oil and oil based fluids. (*These pads will not absorb water or water based liquids)
- Wiping down parts, tools, components
- Automotive industry
- Marina's
- Manufacturing industries
- Warehouse
- Workshops

Features:

- Fast acting with high absorbency
- White in colour – easy to identify as an Oil & Fuel Only Pad and saturation levels are clearly visible
- Supplied in bales of 100
- Hydrophobic (resists water) will float and remove oil from the water surface.
- Fast wicking action

ES-PP-400-P Oil Only Poly Pad - Dimpled & Perforated - 48cm x 43cm - Heavy Weight

SpillSmart Oil Only Pads have been designed to rapidly absorb hydrocarbon based spills. They are suited for both Marine and Land based applications where oil and oil based spills may occur.

These pads are sized to be quickly placed in the path of a spill or to wipe down any machinery that has oil on the surface. Being hydrophobic, (repel water) they will float on water and remove oils from the surface as well. White in colour they are easy to identify as an 'Oil Only' Pad and are supplied in bales of 100.

Envirosmart has a great range of premium absorbent pads to take care of a huge variety of spills. Please speak to your local distributor for further information.

Designed for:

- Marine & land based environments
- Cleaning up hydrocarbons, oil and oil based fluids. (*These pads will not absorb water or water based liquids)
- Wiping down parts, tools, components
- Automotive industry
- Marinas
- Manufacturing industries
- Warehouse
- Workshops

Features:

- Fast acting with high absorbency
- White in colour – easy to identify as an Oil & Fuel Only Pad and saturation levels are clearly visible
- Supplied in bales of 100
- Hydrophobic (resists water) will float and remove oil from the water surface.
- Fast wicking action

ES-PP-400 Oil Only Poly Pad - Meltblown - 48cm x 43cm - Heavy Weight

SpillSmart Oil Only Pads have been designed to rapidly absorb hydrocarbon based spills. They are suited for both Marine and Land based applications where oil and oil based spills may occur.

Being hydrophobic (repel water) they will float on water and remove and remove oils from the surface. Sometimes referred to as contractor grade, these Light Weight pads are very economical and suit work environments where high usage occurs.

Their polypropylene construction ensures they are strong enough for cleaning machinery yet absorbent enough to hold 20 times their own weight. White in colour, they are easy to identify as an 'Oil Only' pad and are supplied in bales of 200.

Designed for:

- Marine & land based environments
- Cleaning up hydrocarbons, oil and oil based fluids. (*These pads will not absorb water or water based liquids)
- Wiping down parts, tools and components
- Automotive industry
- Marina's
- Manufacturing industries
- Warehouse
- Workshops

Features:

- Fast acting with superior absorbency
- White in colour - easy to identify as an Oil & Fuel only pad and saturation levels are clearly visible
- Economical
- Absorb 20 times their own weight
- Compatible with a large variety of hydrocarbons
- Supplied in bales of 200
- Hydrophobic (resists water) will float and remove oil from the water surface

ES-PP-200 Oil Only Poly Pad - 48cm x 43cm - Light Weight

SpillSmart HazChem Pads are the most versatile in our range. Being inert they are capable of absorbing most aggressive chemicals and are ideal for responding to spills of unknown liquids.

These pads are quick to deploy and retrieve and rapidly absorb fluids including Acids and Bases, Oils, Fuels, Solvents, Paints, Citric Acid, Sodium Hydroxide and Water Based fluids. They are premium quality and provide the strength and durability required to handle both hazardous and non-hazardous spills.

Envirosmart has a great range of premium absorbent pads to take care of a huge variety spills. Please speak to your local distributor for further information.

Designed for:

- Versatility - the most premium absorbent pad in our range
- The cleaning up of most aggressive chemicals and hydrocarbon spills including Acids and Bases, Oils, Fuels, Solvents, Paints, Citric Acid, Sodium Hydroxide and Water base fluids
- Chemical storage area's
- Where chemicals and hydrocarbon fluids are used or stored
- Processing and manufacturing plants
- Automotive industry
- Panel shops
- Printing facilities

Features:

- Compatible with a huge variety of aggressive chemicals and hydrocarbons
- Fast acting with high absorbency
- BrightYellow 'Caution' colour is easy to identify
- Fast wicking action
- Supplied in bales of 100

ES-PPHAZ-400-P

HazChem Poly Pad 48cm x 43cm - Heavy Weight

SpillSmart Oil Only Cotton Pads are highly absorbent and designed for hydrocarbon based spills. They are suited for both Marine and Land based applications where oil and oil based spills may occur. These organic pads are a natural alternative to their polypropylene equivalents. They are biodegradable and made from sustainable resources. Each pad offers superior absorbency - a combination of needle punching each pad and premium materials used in the manufacturing process. Being hydrophobic, (repel water) they will float on water and remove oils from the surface. On hard surfaces they clean up accidental spills quickly and placed under machinery capture leaks and drips.

Available in Heavy Weight – 100 per bale and Light Weight – 200 per bale. Please speak to your local distributor for further information.

Designed for:

- Marine & land based environments
- Cleaning up hydrocarbons, oil and oil based fluids. (*These pads will not absorb water or water based liquids)
- Automotive industry
- Marinas
- Manufacturing industries
- Warehouses
- Workshops

Features:

- Fast acting with superior absorbency
- Natural alternative to polypropylene alternatives
- Made from sustainable resources
- Absorb a large variety of hydrocarbons
- HeavyWeight supplied in bales of 100
- Hydrophobic (resists water) will float and remove oil from the water surface

ES-PP-COIL Cotton Oil Only Heavy Weight Pads - 48cm x 43cm - 100 per bale
ES-PP-COIL-200 Cotton Oil Only Heavy Weight Pads - 48cm x 43cm - 200 per bale
