

SpillSmart FloorSweep is an organic cellulose absorbent that contains highly effective microbes to 'digest' oils and hydrocarbons. It also rapidly absorbs and encapsulates a wide variety of other liquids including, petroleum, oils, fuels, solvents, cooking oils, sewerage, protein fluids and other potential pollutants.

It's safe to use on all surfaces, light weight and easy to apply. Simply cover the spill with SpillSmart FloorSweep absorbent and agitate with a stiff broom. Use sufficient product until the mix is dry in appearance. Remove the used absorbent and dispose of in accordance with local government regulations.

EnviroSmart has a great range of premium absorbents to take care of a huge variety of spills. Please speak to your local distributor for further information.

Designed for:

- The cleaning up of industrial spills including – Oils, fuels, solvents, cooking oils, sewerage, protein fluids and other potential pollutants [*Not compatible with strong acid or alkaline solutions.]
- Workshops • Paint shops • Mining
- Manufacturers • Stevedore companies
