

**Designed for:**

- Breaking down oils, fats and grease
- Machine Parts Degreasing
- Exterior Truck and Plant Wash
- Kitchen and Cooking Areas
- Cleaning: Floors, Walls, Seating, Bathrooms, Toilets, Windows and more
- A safe degreaser for use in Oil/Water Separators
- Safe to use in Bio-cycle, Septic and Grease Trap Systems
- Replaces the need for many harsh chemical cleaning agents

**Features:**

- Concentrated water soluble detergent
- Powerful penetrating and cleaning effectiveness
- Natural, Organic and Biodegradable ingredients
- Safe for humans and the environment
- AQIS approved for use in food processing areas
- Passes quick break emulsification requirements
- Lasting Mild Citrus fragrance
- Built in corrosion inhibitors
- Australian Made

EnviroWash Heavy Duty is a powerful, fully biodegradable, degreaser that penetrates and lifts oils, greases and fats. Manufactured from a concentrated blend of organic solvent derived from citrus, it combines sodium-based anionic surfactants that rapidly biodegrade whilst being safe for humans and the environment. Added also to the formulation are 3 separate corrosion inhibitors offering protection to expensive machinery.

EnviroWash HD has been approved for food surface areas and is safe to use as a degreaser in Oil / Fuel water separation systems. It is also safe to use in bio-cycle, septic and grease trap systems where it promotes beneficial biological activity of naturally occurring microbes. These microbes digest organic and hydrocarbon waste, plus aid in deodorising. As a premium quality broad spectrum cleaning and degreasing concentrate, it replaces the need to carry many harsh chemical cleaning agents.

**VARIETIES**

ES-EWHD-05	EnviroWash HD (Container)	5L
ES-EW-HD-20	EnviroWash HD (Container)	20L
ES-EW-HD-200	EnviroWash HD (Drum)	200L
ES-EW-HD-1000	EnviroWash HD (Bin)	1000L

# EnviroWash HEAVY DUTY

## USAGE INSTRUCTIONS

1. Refer to 'User Reference Guide' below for dilution rates
2. Clearly label after decanting into secondary containers
3. EnviroWash HD Cleaner is a super concentrate. When in doubt use less not more
4. EnviroWash HD Cleaner should be trialled on any painted surface prior to use

### User Reference Guide

USE	DILUTION RATE
Machine Parts Degreasing	1:5
Kitchen/Cooking Areas	1:50
Floors/Walls/Seating *EnviroWash HD should be trialled on any painted surface to ensure that the surface is colourfast prior to use.	1:100
Bathrooms	1:100
Mirrors/Windows	1:200
Exterior Truck & Plants	1:200
