

Keep important site documents safe in all weather conditions with EnviroSmarts industrial Document Holders. These heavy duty pouches have been designed for the harshest conditions for both outdoor and indoor use.

EnviroSmart industrial Document Holders are manufactured with our tried and tested 600gsm, Heavy Duty, UV stable, PVC fabric in Hi Visibility yellow. The holder's contents can be viewed through the front window with access to the contents from a folded top opening that reseals with industrial grade Velcro sewn into place with industrial thread. The welded design provides long term durability and provides great protection from all the elements. Hang the Document Holder from machinery, gates, fences, IBC's, internal courier or mail bags and warehouse racking via 2 Heavy Duty Eyelets. Designed to fit up to A4 size documents these Document Holders can also be custom made to suite worksite requirements.
