

SpillSmart Rigid Bunds provide cost-effective temporary storage for liquids and chemicals whilst containing potential spills and leaks. These Bunds are transportable, reusable and ideal for situations where space is minimal. Internal Aluminium brackets insert into specially designed bund pockets, ensuring the 300mm bund walls give great strength, whilst minimising trip hazards and may be removed as required.

These Bunds have multiple fabric options to suit a wide range of site requirements and can be custom made to your client's specification. Please contact your Envirosmart distributor for further information including our range of temporary Bund accessories.

Designed for:

- Temporary storage of liquids, chemicals and leak containment
- Equipment washing
- Where floor space is minimal
- A portable temporary bund solution

Available Materials:

- Heavy Duty UV Stable 900gsm PVC
- Elvaloy Fabric designed for robust applications and the storage of hydrocarbons and a vast array of chemicals
- Polypropylene for strong aggressive Acids and Bases

Features:

- 300mm height to maximise capacity
- Internal Rigid aluminium legs provide strength and minimise trip hazards
- Easy to clean (reusable)
- Multiple fabric options to suit a wide variety of site requirements
- Custom sizing available

Size Code	Size (mm)	Volume (L)
0606	600x600	108
