

SpillSmart Service Mat provides safety, comfort and protection in real world working environments. For people on the tools, Service Mat keeps you off the ground and provides an impermeable layer to work on and around equipment during servicing and repairs. It can also provide a convenient clean surface to layout tools during a job.

The fabric it is made from is a Heavy Duty 600gsm PVC. Tough, durable easy to clean and selected for its ability to last for the long haul. SpillSmart Service Mats come in a high visibility yellow and feature 25mm hook and loop Velcro to keep it tidy when rolled up and in storage. Perfect for the Ute, Van, Truck or Workshop.

Contact your local distributor for information about this product and others in our range. For added protection and extra features ask about SpillSmart WorkMat.
