

**SINGLE IBC SPILL PALLET  
COVER AND FRAME**  
(SPILL PALLET SOLD SEPARATELY)

**DOUBLE IBC SPILL PALLET  
COVER AND FRAME**  
(SPILL PALLET SOLD SEPARATELY)

IBC Pallet Bunds are a popular choice for providing secondary containment for leaks and spills whilst storing IBC's and other containers. However, if they are required to be stored outdoors, cover protection should be acquired.

SpillSmart Single and Double IBC Covers, supplied with a frame, provide great weather protection and protection from other debris from entering the sump. Keeping rain water from filling the sump is the prime reason for investing in this product. Bund capacities are generally calculated to hold 110% of the liquid stored. If rain water accumulates in the bund sump and a leak from stored drums eventuated, the risk therefore would be the bund overflowing causing a spill.

SpillSmart IBC Covers are manufactured from a Heavy Duty, UV treated PVC. They feature industrial grade #10 zippers with double door access on the front with Velcro tabs to roll up the access points. Velcro tabs are also featured internally to secure the cover to the frame. The frame

manufactured from galvanised steel is dispatched flat packed with the cover and assembles quickly. Covers and frames are also available for both 2 & 4 Drum Bunded Spill Pallets with custom options available.

\*Please note: When ordering for a non-EnviroSmart Spill Pallet Bund, please provide the outside corner to corner measurements of the manufactures Spill Pallet Bund(s) requiring the Frame & Cover. Spill Pallet Bunds are sold separately.

### Designed for:

- Reducing the potential of spilled liquid overflowing from the Bund sump.
- Provides rain, UV and weather protection

### Features:

- Manufactured with HD, UV stable PVC
- Double Door front access
- Velcro tabs for holding rolled access doors in place
- Internal Velcro tabs secure cover to frame
- Supplied with a Galvanised steel frame to retrain the covers shape and rigidity
- Quick frame assembly
- Also available in 2 and 4 Drum Bund varieties with custom options available
- Australian Made
