<u>SpillSmart</u>

General Purpose Pillows

SpillSmart General Purpose Pillows have been designed to contain larger amounts of fluid when a pad just isn't enough. They are able to be placed in hard to reach area's and are ideal for taking up accidental spills, drips and leaks. General Purpose Pillows will rapidly absorb hydrocarbon and water based spills including Oil, Fuel, Coolant, Degreasers, Brake Fluid and Paints. They are also effective for cleaning up body fluids, sewerage, milk and all non-aggressive liquids.

Manufactured with a poly spun bonded outer layer, they are filled with an organic cellulose absorbent and colour coded for easy identification. Use when conducting routine machinery maintenance, when dispensing hydrocarbons and non-aggressive fluids, around drums, under leaky seals and pipes, in storage area's and work area's where accidental spills may occur.

ES-P-GP-G

Designed for:

- Indoor & outdoor land based spills
- Containing and absorbing fluids including Oil, Petroleum, Ethanol, Kerosene, Brake Fluid, Mineral Spirits, Turpentine, Water Based fluids and all non-aggressive liquids
- Absorbing leaks, drips and spills during machinery maintenance, when dispensing liquids, under broken seals and leaking pipes, in storage area's and work area's where accidental spills may occur
- Automotive industry
- Warehousing and storage area's containing hydrocarbon and non-aggressive liquids
- Site maintenance
- Manufacturing industries

Features:

- Compatible with Oil & Hydrocarbons, water based fluids and non-aggressive liquids
- Manufactured with a poly spun bonded outer layer containing a highly absorbent organic cellulose filling
- Colour coded 'Grey' General Purpose for easy identification
- Fast wicking action

General Purpose Pillows - 45cm x 45cm - Grey Poly Cover

SpillSmart Oil Only Pillows have been designed to

contain larger amounts of fluid when a pad just isn't

enough. They are able to be placed in hard to reach area's and are ideal for taking up accidental spills, drips

These durable pillows absorb oils, fuels and

hydrocarbons, are hydrophobic, (repel water) perform

in all weather conditions and are capable of floating on

water. Manufactured with a poly spun bonded outer

layer they are filled with oil only particulate and colour

Use when conducting routine machinery maintenance, when dispensing hydrocarbons, around drums, under leaky seals, in storage area's and work areas where

and leaks.

coded for easy identification.

accidental spills may occur.

Oil Only Pillows

Designed for:

- Indoor and outdoor use
- All weather conditions
- Cleaning up hydrocarbons, oil and oil based fluids. (*These pads will not absorb water or water based liquids)
- Automotive industry
- Marina's
- Manufacturing industries
- Warehouse
- Workshops

Features:

- Fast acting with superior absorbency
- White in colour easy to identify an Oil & Fuel Only Pillow and saturation levels are clearly visible
- Poly spun bonded outer layer and filled with oil only particulate
- · Absorb a large variety of hydrocarbons
- Hydrophobic (resists water)

HazChem Pillows

SpillSmart HazChem Pillows have been designed to contain larger amounts of fluid when a pad just isn't enough. They are able to be placed in hard to reach area's and are ideal for taking up accidental spills, drips and leaks.

These are the most versatile pillows in our range. Being inert they are capable of absorbing most aggressive chemicals and are ideal for responding to spills of unknown liquids.

Manufactured with a tough, yet absorbent Poly spun bonded outer layer and filled with poly particulate, they are effective with fluids including Acids and Bases, Oils, Fuels, Solvents, Paints, Citric Acid, Sodium Hydroxide and Water Based fluids. Use when conducting routine machinery maintenance, when dispensing chemicals and liquids, around drums, under leaky seals and pipes, in storage area's and work areas where aggressive and

ES-P-HAZ-A

non-aggressive spills may occur.

Designed for:

- Versatility the most premium pillow in our range
- The cleaning up of most aggressive chemicals and hydrocarbon spills including Acids and Bases, Oils, Fuels, Solvents, Paints, Citric Acid, Sodium Hydroxide and Water base fluids
- Absorbing leaks, drips and spills during machinery maintenance, when dispensing liquids, under broken seals and leaking pipes, in storage area's and work area's where accidental spills may occur
- Automotive industry
- Where chemicals and hydrocarbon fluids are used or stored
- Processing and manufacturing plants
- Panel shops
- Printing facilities

Features:

- Compatible with a huge variety of aggressive chemicals and hydrocarbons
- Manufactured with a Poly spun bonded outer layer and filled with poly particulate
- Fast acting with high absorbency
- BrightYellow 'Caution' colour is easy to identify
- Fast wicking action

HazChem Pillows - 45cm x 45cm - Yellow Poly Cover
