

SpillSmart General Purpose Socks have been designed to provide a highly absorbent barrier preventing liquids from escaping on hard surfaces or down drains. They can also be placed around machines or drums to contain leaks.

These socks have been manufactured with a poly spun bonded outer layer and contain an organic cellulose fill. They will rapidly absorb hydrocarbon and water based spills including Oil, Fuel, Coolant, Degreasers, Brake Fluid, Paints and other non-hazardous liquids. Socks are colour coded for safety and are easy to mould and shape around leaking equipment or a spill.

EnviroSmart has a great range of premium absorbent socks to take care of a huge variety spills. Please speak to your local distributor for further information.

Designed for:

- Indoor & outdoor land based spills
- Containing and absorbing fluids including Oil, Petroleum, Ethanol, Kerosene, Brake Fluid, Mineral Spirits, Turpentine, Water Based fluids and all non-aggressive liquids
- Creating absorbent barriers around a spill, machinery and drums
- Automotive industry
- Warehousing and storage area's containing hydrocarbon and non-aggressive liquids
- Site maintenance
- Manufacturing industries

Features:

- Compatible with Oil & Hydrocarbons, water based fluids and non-aggressive liquids
- Manufactured with a poly spun bonded outer layer containing a highly absorbent organic cellulose filling
- Colour coded 'Grey' – General Purpose for easy identification
- Fast wicking action

ES-SOGP-75-1.2	General Purpose Poly Sock - 75mm x 1.2m
ES-SOGP-75-2	General Purpose Poly Sock - 75mm x 2m
ES-SOGP-75-3	General Purpose Poly Sock - 75mm x 3m

SpillSmart Oil Only Socks have been designed to provide a highly absorbent barrier preventing liquids from escaping on hard surfaces or down drains.

Being hydrophobic (resist water) they do have the ability to float on water removing oils from the surface where a boom may not be applicable. They can also be placed around machines or drums to contain leaks. These socks have been manufactured with a poly spun bonded outer layer and a highly absorbent poly particulate fill that rapidly absorbs oils, fuels and hydrocarbons.

Oil Only Socks are colour coded for safety and are easy to mould and shape around leaking equipment or spills.

Designed for:

- Indoor, Outdoor land based applications and spills close to or on water
- Cleaning up hydrocarbons, oil and oil based fluids. (*These socks will not absorb water or water based liquids)
- Creating absorbent barriers around a spill, machinery and drums
- Automotive industry
- Marina's
- Manufacturing industries
- Warehouse
- Workshops

Features:

- Compatible with oil and hydrocarbons
- Manufactured with a poly spun bonded outer layer and a highly absorbent poly particulate fill
- White in colour – easy to identify as an Oil & Fuel Only sock and saturation levels are clearly visible
- Hydrophobic (resists water)
- Fast wicking action

ES-SPAO-75-1.2	SpillSmart Oil Only Polypropylene Sock 75mm x 1.2m
ES-SPAO-75-2	SpillSmart Oil Only Polypropylene Sock 75mm x 2m
ES-SPAO-75-3	SpillSmart Oil Only Polypropylene Sock 75mm x 3m

SpillSmart HazChem Socks are the most versatile in our range. Being inert they are capable of absorbing most aggressive chemicals and are ideal for responding to spills of unknown liquids.

These socks form a highly absorbent barrier preventing liquids from escaping on hard surfaces or down drains. They can also be placed around machines or drums to contain leaks. These socks have been manufactured with a tough, yet absorbent Poly spun bonded outer layer and filled with poly particulate.

They are effective with fluids including Acids and Bases, Oils, Fuels, Solvents, Paints, Citric Acid, Sodium Hydroxide and Water Based fluids. They are premium quality and provide the strength and durability required to handle both hazardous and non-hazardous spills.

Designed for:

- Versatility - the most premium absorbent sock in our range
- Containing and absorbing aggressive chemicals and hydrocarbon spills including Acids and Bases, Oils, Fuels, Solvents, Paints, Citric Acid, Sodium Hydroxide and Water base fluids
- Creating absorbent barriers around a spill, machinery and drums
- Chemical storage area's
- Where chemicals and hydrocarbon fluids are used or stored
- Processing and manufacturing plants
- Automotive industry
- Panel shops
- Printing facilities

Features:

- Compatible with a huge variety of aggressive chemicals and hydrocarbons
- High absorbency
- Tough Poly spun outer layer with a Poly particulate filling to encapsulate liquid
- Bright Yellow 'Caution' colour is easy to identify
- Fast wicking action

ES-SPHAZ-75-1.2	HazChem Polypropylene Sock 75mm x 1.2m
ES-SPHAZ-75-2.4	HazChem Polypropylene Sock 75mm x 2.4m
ES-SPHAZ-75-3	HazChem Polypropylene Sock 75mm x 3m

SpillSmart General Purpose Organic Socks have been designed to provide a highly absorbent barrier preventing liquids from escaping on hard surfaces or down drains. They can also be placed around machines or drums to contain leaks.

These socks have been manufactured with a tight woven cotton outer layer and contain a biologically active organic fill that assists with bioremediation. They will rapidly absorb hydrocarbon and water based spills including Oil, Fuel, Coolant, Degreasers, Brake Fluid, Paints and other non-hazardous liquids. These socks are a great environmentally friendly alternative, are ideal for industrial clean-ups and provide increased options for disposal.
