

Keep critical site documents safe and secure in any weather with EnviroSmart's industrial Document Holders. These heavy-duty pouches are designed to withstand the toughest conditions, ensuring reliability for both outdoor and indoor use.

EnviroSmart industrial Document Holders are crafted from our proven 600gsm Heavy Duty, UV-stable PVC fabric in high-visibility yellow. Featuring a clear front window, contents can be easily viewed, while the folded top opening—secured with industrial-grade Velcro stitched with durable thread—provides easy access and resealing. The welded construction ensures long-term durability and excellent protection from the elements. With two heavy-duty eyelets, these holders can be hung from machinery, gates, fences, IBCs, internal courier or mail bags, and warehouse racking. Designed to accommodate up to A4-sized documents, these holders can also be custom-made to suit your specific worksite needs.

Custom Document Holders are available and can be specifically labelled and designed for:

- SDS – Safety Data Sheets
- SOP – Standard Operating Procedures
- PPE – Personal Protective Equipment Guidelines
- Inventory Records
- Inspection and Compliance Documents
- Equipment Maintenance Logs
- Emergency Evacuation Plans
- Custom label also available

Perfect for:

- Securing and preserving critical site documents in harsh environments
- Work permits, pre-start logs, notifications, logbooks, and operational procedures
- Safety documentation such as SDS, machinery/equipment manuals, and defence applications
- Attachments to courier and security bags

Features:

- Constructed from welded 600gsm, heavy-duty, UV-stabilised PVC
- High-visibility safety yellow
- Clear front window for easy viewing
- Folded top opening secured with industrial 25mm Velcro
- Reusable, reducing single-use holder costs
- Long-term durability and easy maintenance
- Fully customisable options available
- Proudly Australian-made
